

Department of Electrical and Computer Engineering
College of Engineering, Trine University, Angola, Indiana
SE 353 Software Engineering
Project Part I: Concept

Due date: Tuesday, September 17, 2026, by 12.30 p.m. as a single WORD document.

Points: 100. **Weight in project grade:** 10%

Decide on a project topic for your team and write a project concept document with the following structure:

Cover page

- ☐ Department, university
- ☐ Project title
- ☐ Team, team members
- ☐ Instructor
- ☐ Date

Abstract (between 100 and 200 words)

Project Description (between 600 and 1000 words). Indicate the following:

- ☐ Main goals – What is the project about?
- ☐ Main functionality and characteristics
- ☐ Intended users and key usability goals (that is, how users will benefit from your project)
- ☐ Potential for further development beyond SE 353
- ☐ Challenges that you may encounter during the project's development.
- ☐ Intended technology, e.g., platform, languages, libraries, tools, etc.
- ☐ A note on how this project can help your professional growth.
- ☐ Team members: brief background information, specific skills, and involvement in the project.

Market Potential or Open-Source Significance (between 250 and 500 words). Address the following:

- ☐ Market potential, commercial promise, or open-source value.
- ☐ Evidence of user interest (provide references).
- ☐ [Optional: Social and environmental impact].
- ☐ Notes on similar/related products (provide references).
- ☐ Novelty of your solution, innovative characteristics.

[Optional] Project Related Resources

- ☐ At least three reference articles (journal, conference, or web scientific publications)
- ☐ At least three related websites with useful resources

Note that the project-related resources are optional in this part of the project but will be required in Part II, Project Specification. To the above, you can add any other items that will strengthen your proposal.
